Grafdoer is the one-stop solution for Bathware and Kitchenware Products

VMS Bathware Pvt. Ltd., under the brand name Grafdoer, is a one-stop solution for bathware, sanitary ware, kitchenware products, and accessories suiting to a variety of Art Lovers and all Budgets for their representation of Love to enhance the beauty of their Home. The company's long-term vision is to become India's leading bathware and kitchenware products manufacturer and exporting our products to different nations as a symbol of trust. Their products are aesthetically designed which highly attracts customers. They ensure affordable products with superior quality at the same time. "Currently, the nation and the world are struggling with lockdown state, so our motto is to contribute to curbing the pandemic. We are designing sensor-based products which ensure contactless functioning resulting in complete hygiene. The core belief of the GRAFDOER team is to ensure customer satisfaction. With a belief that "Customer satisfaction is our topmost priority", we try our level best to serve the topmost quality of products and after-sales services to our customers, says Vinay Jain, Founder & CEO, Grafdoer.

The company's product range consists of bathware, sanitary ware, kitchen ware, and accessories which will turn your space into an aesthetically appealing piece of art. The products are truly a day-to-day necessity with a trust of quality. Grafdoer's USP is manufacturing the premium quality of products with a pinch of artwork and affordable at the same time. Evolution is the inherited factor of humanity. Similarly, they have learned and changed themselves a lot in the last 18 years. They have not pivoted from our initial product; we have just upgraded with the same.

About Vinay Jain

Vinay Jain is a dynamic and highly passionate first-generation entrepreneur. As the Founder & CEO of Grafdoer, he directs and aligns the company's operations and strategic objectives in line with the short and long-term business goals. After passing out of college Mr. Vinay Jain came to Delhi to explore business ideas instead of joining his family

Vinay Jain, Founder & CEO, Grafdoer VMS Bathware Pvt. Ltd.

"The products are truly a day-to-day necessity with a trust of quality. Grafdoer's USP is manufacturing the premium quality of products with a pinch of artwork and affordable at the same time. Evolution is the inherited factor of humanity. Similarly, they have learned and changed themselves a lot in the last 18 years."

business in Rajasthan. After a lot of contemplation, he started a trading business of a leading Bath Fittings manufacturer in Chawri Bazar. Somewhere inside his heart, he was not happy with the quality and consistency of the products that he was trading. He always had a dream to establish his factory to produce high-quality products. Incidentally, after 4-5 years of trading, that time to fulfill his dream came knocking his way, when one of the suppliers/manufacturers of that Bath Fitting brand decided to wrap up his factory. After studying the production unit, he cashed this opportunity immediately and gradually set up his own production unit. Gradually this unit based out of Mayapuri was expanded till the end of 2019. He has recently pursued the Senior Management Program from IIM Calcutta, held in 2019-2020.

He came to Delhi with only 2-3 lacs to start trading business and with sheer hard work he grew his business. In order to take over the sick unit, he stuck an innovative deal with that as when he will start earning by making this sick unit into a profitable one, he will repay in installments. That deal went as a win-win for both parties and hence, the journey to fulfill his dream began.

Overcoming Challenges

One of the biggest challenges faced by Vinay was the lack of knowledge to run the production unit - from the know-how of machines to the raw material, suppliers, and handling labor which was the key element for creating a benchmark for Quality. His lack of knowledge was overcome by working as a worker on the production floor and learning from production employees. He believes that knowledge can be acquired by the zeal to gain it.

"One of the proudest moments for us was that we have curated a vast range of products in a very short span of time ranging from affordable products to the luxury high-end products," he says. The company has achieved success in introducing an elite class and affordable range of products that weren't available in the market earlier. The company has built a team of honest, dedicated, and dynamic employees. They have 1000 dealers across India and Nepal.

Future Endeavors

Vinay believes in bringing innovative and durable products that are Made in India and suitable for every home. "For us, it is one continuous journey,

"One of the proudest moments for us was that we have curated a vast range of products in a very short span of time ranging from affordable products to the luxury high-end products," he says. The company has achieved success in introducing an elite class and affordable range of products that weren't available in the market earlier. The company has built a team of honest, dedicated, and dynamic employees. They have 1000 dealers across India and Nepal.

where we have overcome many hurdles and now strive to become a 100 Cr turnover company," he asserts. The company plans to launch a new brand called 'ARUAV'.

He concludes by giving advice to the budding entrepreneurs that "Opportunity never comes by itself, opportunities have to be found. And in this dynamic age up-scaling is a must, so keep yourself with time."

**MOST TRUSTED COMPANY IN BATHWARE,
AWARDED BY CHAUDHARY BIRENDER SINGH
MINISTER OF STEELS (INDIA)**

Union Budget 2020: Industry Reactions

This budget packs a wallop. To understand the excitement, here are the industry reactions from different sectors.

Finance Minister Nirmala Sitharaman on Saturday presented the most crucial budget of the decade. In her second speech, which proposes to give the Indian economy an impetus to emerge to more vibrant and stronger.

With an emphasis on capacity building and employment of marginalized sections of society including farmers, the Union Budget intends to create, an 'aid by Schemes', that 'not people should get unfairly employed. Our businesses should be healthy. For all investors, women and people from SCs and STs, the Budget seems to offer the opportunity.'

The budget packs a wallop. To understand the excitement, here are the industry reactions from different sectors.

Pradeep Agarwal, Founder & Chairman, Signature Global and Chairman, National Council on Affordable Housing, ASSOCHAM

Extension of additional tax deduction of Rs 5.5 lac on affordable housing worth upto Rs 45 lac by one year is a step in right direction. Similarly, extension of capital gains on affordable housing by one year is also a welcome step. Also, Government's increased focus on infrastructure sector and connecting Mumbai - Delhi corridor is the need of the hour, which Horatio Finance Master not tried to address. This will benefit peripheral towns like Sonma (near Gurgaon) immensely.

Gaurav Bhat, Co-Founder & CEO, WOOLCHAS, a USR chain

"India has one of the strongest startup ecosystems in which entrepreneurship takes the core position. Hence, one of the measures taken in the new Union 2020 Budget to increase the turnover limits for startups from 25 crore to 100 crore is vital to institutionalize the entrepreneurial opportunities. The cash shortage initiative taken by the Government is another great move which will reduce the cost of manufacturing, food, and will further boost the overall income for us. The new business charter is great relief as it would ensure harassment-free taxes, and will mark a breakthrough in the startup ecosystem with more transparency and efficiency. The Government's firm agenda of stable business, boosting of advisory cells and investment corridors will add to the advantage of expanding new businesses with the budget."

Vinay Jain, Founder and CEO, Grafdoer

"We appreciate the Government's focus on sanitation industry under Swachh Bharat Abhiyan campaign committing to Open Defecation Free Country by allocating INR 12,300 crore. This is an exceptional move towards the development of our nation. The Government's emphasis on supporting the MSME sector by providing employment opportunities and providing a subordinate debt by banks is a much appreciated move. We are positive about the Government's focus on boosting the domestic manufacturing sector, as that will further boost Made in India. Also, the reduction in the income tax slab has given a relief to the middle class sector of the Society, as it will increase their buying power and boost the market."

Dinanath Dubhashi, Managing Director & CEO, LAT Finance Holdings Ltd

"Despite tight fiscal restraints, the Budget has done a great job of supporting growth by banking taxes and facilitating the development of core sectors like agriculture and allied activities, renewables, exports and social sectors with thrust on digital sector. This is strongly positive for the business model of cutting edge NPTCs like LTFs. If implemented judiciously, this Budget has the potential for transformational."

Grafdoer: Meeting Design & Quality Aspirations

Through the new Grafdoer brand launched under its parent company VMS Bathware, Vinay Jain, CEO & President, Grafdoer Sanitaryware, is offering Indian homeowners a luxurious and technology-backed collection of kitchen and bathroom accessories and sanitaryware products.

What can the modern homeowner expect from the Grafdoer range of products?

Taking design inspiration from German technology, Grafdoer offers premium category bath fittings, kitchen sinks and sanitaryware, launched under our parent company VMS

Our aim is to bring sanitation solutions that are modern, stylish, affordable and completely Made in India
Vinay Jain

Evolution of Bathware & Kitchenware in 2020

Sanitary ware Industry

Sanitary ware industry in India and the world is witnessing unmatched growth due to the high demand of both ware & kitchen ware products which includes wide array of products like washbasins, water closets, bath tubs, toilet bowls, kitchen faucets etc. The industry has been growing mainly due to being easy to maintain, hence making them cost-efficient. The Indian consumer's rapidly growing appetite for style and aesthetics in their homes and outdoor spaces is driving demand for this industry.

Home sectors where the demand is expected to grow from consumer sectors such as hospitals, hotels, educational institutions, industries, housing and other public places. The industry is challenged in managing its shifting costs in the manufacturing of ceramic products which leads to significant costs affecting profits. The products cannot be fully replaced, as if there is a replacement of a building is being done, resulting in revenue growth being slow.

Current scenario of Sanitary ware Industry in India and the way ahead.

The Indian sanitary ware market was worth US\$ 2,585 million in 2017. The market is further expected to reach INR 4000 million US\$ by 2025, at a CAGR of around 10% during 2018-2025. The growth has been increasing due to increase in consumer disposable income, rapid urbanization, rapid increase in housing and changing end user preferences. Industries like hospitality and tourism have increased the demand for ceramic sanitary ware products.

In terms of geography, the southern region of India dominates the market in terms of consumption. Higher literacy rates and increased awareness for need of sanitation in this region are the reasons behind this.

expectations from Budget 2020

The Information Technology (IT) industry is currently going through a transition phase, as numerous new technologies in the form of Artificial Intelligence (AI), Cognitive Computing, Data Science, Machine Learning (ML), Big Data, Cloud Analytics (CA), Internet of Things (IoT), Blockchain, etc. are changing the odds of the game for incumbents IT players. Given the relevance of the new-age technology business, it is imperative that the Government invests in AI, ML, IoT, Blockchain, etc. in order to lead the world in these areas and to create a competitive edge for India. The Government should also consider investing in research and development in the niche technology services sector.

The Government should also consider investing in research and development in the niche technology services sector. The Government should also consider investing in research and development in the niche technology services sector.

MRP ₹ 32/-

SPECIFICATION

Teflon tape

Width	12mm (½")
Thickness	0.1mm
Length	10m
Density	50g/cm ³
Composition	100% PTFE
Temperature Range	-190°C to 208° C
Tensile Strength	8N/mm ²
Elongation	50% min
Pressure Resistance	up to 30Bar (2.0 MPA)
Chemical Resistance	PH:0-14

A still life composition featuring a potted tree with a twisted trunk, a large dark bowl, and several glass jars on a rustic wooden table. The tree has a dense, rounded canopy of green leaves and a trunk that is intricately braided or twisted. The base of the tree is wrapped in a dark, textured fabric. To the left of the tree is a large, dark, textured bowl. In front of the tree are three glass jars of varying sizes and shapes, some with a weathered or aged appearance. The entire scene is set on a rustic wooden table with a distressed, white-painted surface. The background is a plain, light blue wall.

FLUSHING SYSTEMS

CONCEALED FLUSH TANK

Less is more. This is the well liked rule when it comes to architecture and interior designing. And that is exactly what a concealed tank toilet does to your bathroom.

Grafdoer offer you a complete solution for concealed Flush tank with a range of designer and high quality flush plates. it gives a spacious and beautiful look to your bathroom and keep clean and hygienic all the times.

ADVANTAGES

Easy to install and maintain : GRAFDOER floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.

Perfect Pan Cleaning : Heavy and even water discharge during every flush at every water pressure.

Save Water: Impressive Dual Flush with a provision of 3/6 ltr flush (can be adjusted to 2/4 ltrs)

Less Noise : Technically advanced, silent flush valve and fast filling hydraulic float valve minimises the flushing sound during usage.

Features

Easy Installation

Easy and hassle free installation as no chiselling of wall is required.

Wide Compatibility of WC

Accommodates different types of wall hung WCs as holes are provided at different heights.

Load Bearing Capacity

Wall hung WC can be bolted simply and securely to the frame, which can take a load of up to 400kg.

Perfect Easy Alignment

Fixed inlet and outlet distance (135 mm from centre to centre) means perfect installation of WC, as pre-defined space for cistern results in perfect flushing every time.

Adjustable Height

Adjustable legs (0-200mm) to allow for variation in heights of WC, as required.
